3 CHECK IN / LICENCE REQUIREMENTS

All competitors must check in prior to scrutineering. After their paperwork has been checked, including presentation of current Club Membership Card and current Driver's Licence, Competition License, Competition Record (if issued) and Competition Vehicle Log Book (if issued), they will be given a checklist for scrutineering. Competitors must ensure that their car complies with the checklist prior to presenting the car for scrutineering.

An AASA Club or [Equivalent Standard](#) Competition licence or higher is a requirement for this event. If you do not have a current Competition Licence, please consult with event secretary at driver check in.

4 SCRUTINY

Prior to the event it is your responsibility to check your car thoroughly to ensure it is in a safe condition to participate in the event. If you wish to have a scrutineering list prior to the event, please contact the Event Secretary and he shall send you one.

All removable objects (tools, jacks, wheel trims, etc.) must be removed from the vehicle prior to being presented for scrutineering. Ensure no unnecessary items are left in the glovebox etc.

Present your car for scrutineering with the checklist under the left wiper or, in case of rain, on the front passenger seat. After your car has passed scrutineering, your checklist will be signed and your car will have a sticker placed on the *top left-hand corner* of the windscreen. No car will be permitted onto the track without this sticker in place.

5 PRACTICE SESSION

The practice session is provided as an opportunity for you to familiarise yourself with the track; treat it as such and do not be tempted to 'compete' with other track users. Drivers will be grouped according to driver experience and vehicle type.

Drivers in all groups will not be permitted to overtake on corners unless the driver in front clearly acknowledges that they have seen the following car and the driver clearly indicates on which side to pass.

Be aware of the cars on the track around you. Watch your mirrors regularly. If a car comes up to overtake, indicate by clearly pointing with your hand the side on which you wish to be passed and keep your current line - do not deviate onto the other side of the track. Make sure you slow down to let the overtaking car pass.

If you are travelling behind a car doing a similar speed as yourself, always leave a safe braking distance. Don't tailgate and never allow a group of cars to bunch. If cars do bunch behind you, move to the side, slow and allow them to pass.

You may leave the track at any time during a session. You must exit at the PIT ENTRANCE at the start of the front straight. Be sure to give a hand signal (arm extended upwards outside the car) as you do so.

6 PASSENGERS

During the practice and sprint sessions, at the discretion of the event coordinators, passengers are only allowed where their role is as an 'instructor' to guide those who are inexperienced. All participants must hold a current Australian Auto-Sport Alliance Club Racing licence or higher or an AASA approved equivalent standard competition license. No more than the accepted number of vehicles in line with the relevant track licence shall be on the track at any one time.

7 SPRINT EVENT

The Event Secretary prior to the event will put competitors into groups of up to twenty eight (28) for the sprint with grid positions generally based on past lap times. Entrants from invited clubs will be grouped together wherever possible.

We shall use the public address system to indicate which group is to grid up in the dummy grid. There will also be a sign indicating which group is currently on the track.

Cars will be started in pairs according to grid position with a significant gap between pairs. Please do not bunch up on your warm up lap.

The sprint consists of a one warm up lap, followed immediately by 12-15 minutes of timed flying laps, and then a cool down lap, exiting at the PIT ENTRANCE. The chequered flag will be waved at the start/finish line to indicate that you are completing your last flying lap. A red flag or an "IN" board will be shown to you at the last flag point before the pit entrance confirming that your timed run has ended.

The timing mark will be at the start finish line. Queries relating to the correctness of times must be directed to the Clerk of Course. At no stage may a competitor enter the timing box, except on the express authority of the Clerk of Course or the Chief Timekeeper.

8 FLAG MARSHALLS & POINTS

Please ensure that you are at the dummy grid *five minutes prior* to your appointed flag sessions and report to the nominated Flag Marshall Co-ordinator. All Flag Marshalls, whether competitors or not, will be required to sign on as Officials prior to commencing marshalling duties. A course car will take you to and from the flag points. When manning a point and the need arises to wave a flag, wave it vigorously so those oncoming cars are warned. Instruction sheets will be at each flag marshalling point

The flags at each flag point will be:

YELLOW FLAG	is used to indicate a hazard on (or off) the track. If it is being waved during a practice session, slow to a safe speed and do not overtake.
BLUE FLAG	is used to warn drivers that a faster car wishes to overtake.
RED FLAG	This flag will be used if a dangerous situation occurs and indicates the end of the session. Immediately reduce speed and return to the paddock.

In addition at the start/finish line the following additional flags will be used:

BLACK FLAG	shown at the Start line with the holder pointing at you. You are to complete the lap you are on and return to the pits immediately and report to the pit lane official.
WHITE FLAG	indicates a slow moving or service vehicle on the track.
CHEQUERED FLAG	indicates end of practice session or timed laps. Proceed to the exit point mentioned above at warm down pace.

9 VEHICLE BREAKDOWN & RECOVERY

If your vehicle breaks down or unintentionally leaves the circuit and becomes undriveable, get out of the car and move to a safe distance away from the circuit, your car and any possible danger. **THINK OF YOUR OWN SAFETY FIRST.** You must not work on your car. Your vehicle will be recovered as soon as possible.

When vehicle recovery is required, a Recovery Official will coordinate the operation. No vehicle is to be moved or recovered from the track unless the Recovery Official is in attendance.

Any car towed from the circuit because of damage, must be re-examined by scrutineers and have the approval of the Clerk of Course before being allowed to resume participation in the event.

10 CANCELLATION

A full refund (minus \$40) will be returned provided cancellation is advised *no less than 7 days prior* to the event. Cancellations after that time will not be refunded. No refund for cancellation after publication of Further Supplementary Regulations.
